I'm wondering if your response to comments for S Carolina progress report can piggyback off data on Class I areas meeting vis. Goals from the Virginia and DE progress reports (and cite our NPRs for them)? Va's P.R. has the same Class I areas impacted as South Carolina (other than

Okefenokee and Brigantine). Delaware's discusses Brigantine. Both VA and DE have visibility data for all those Class I areas. (of course- I admit that I didn't read SC's progress report so maybe the report does include the vis. Data for those areas and the commenter is wrong?)
